20 Years Building Legacies

Our Pillars

Clients

Commitment

Flexibility

Safety

Teamwork

Premier Building & Construction (PBC) is a trusted commercial builder with over two decades of experience delivering high-quality projects across Albury Wodonga and regional Australia.

Built on a foundation of integrity, collaboration, and craftsmanship, PBC has grown into a respected industry leader known for delivering projects that create lasting impact for clients, communities, and future generations.

Our Story

Building with Purpose. Building for the Future

Founded in 2006, Premier Building & Construction has grown over two decades into one of regional Australia's leading commercial construction companies, delivering award-winning projects across Albury Wodonga and beyond.

From early community projects to major developments valued up to \$40 million, PBC has built a reputation for delivering high-quality outcomes across the commercial, industrial, education, health, aged care, hospitality, community, and government sectors.

What sets PBC apart is the ability to combine large-scale capability with genuine regional values, building strong relationships, supporting local suppliers and subcontractors, and creating spaces that leave a lasting impact on the communities they serve.

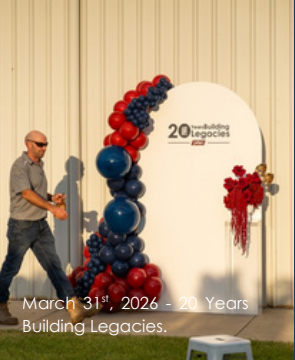

PBC's portfolio includes dynamic projects such as the award-winning Wodonga Education First Youth Foyer. The team brings together innovation, craftsmanship, collaboration, and practical expertise across education facilities, sporting infrastructure, health and aged care developments, hospitality venues, and large-scale commercial builds.

Built on trust, reliability, and a solutions-focused approach, PBC works closely with clients to deliver projects with transparency, precision, and professionalism from concept through to completion.

PBC's commitment to excellence has been recognised through numerous industry accolades, including:

- Regional Commercial Builder of the Year
- Regional Residential Builder of the Year
- 2025 Best Commercial Project (\$6M-\$20M)
- 2026 Women in Building Award
- 2026 Apprentice of the Year Award

Twenty years on, Premier Building & Construction continues to build more than projects, we build trusted partnerships, thriving communities, and lasting legacies for future generations.

Master Builders Association

At Premier Building & Construction, we provide end-to-end construction solutions tailored to the needs of commercial, industrial, community, education, and government clients.

We pride ourselves on delivering projects that meet quality expectations while providing value for money. We are a highly respected builder with an enviable reputation for quality, professionalism, and service across the construction industry.

Our ISO-certified management systems, ISO 9001 (Quality Management), ISO 14001 (Environmental Management), and ISO 45001 (Occupational Health & Safety), underpin every stage of construction, ensuring safe, consistent, and high-performing outcomes from planning through to handover. No matter the project, sector, or complexity, we remain committed to delivering excellence every time.

Regardless of scale or complexity, Premier Building & Construction delivers trusted construction solutions built on quality, collaboration, innovation, and long-term value.

Backed by experienced leadership, skilled in-house teams, and proven systems, PBC combines regional values with large-scale capability to bring each client's vision to life through what has become known as the "Premier Advantage".

Built on Community

At Premier Building & Construction, community has always been at the heart of everything we do. For over two decades, PBC has proudly delivered projects that not only shape skylines, but strengthen the communities in which people live, work, learn, and connect.

As a regionally based builder, PBC understands the importance of supporting local through long-standing partnerships and ongoing investment in the region. From working with regional subcontractors and suppliers to creating employment opportunities and supporting apprenticeships, the business is committed to reinvesting into Albury Wodonga and surrounding communities wherever possible.

PBC proudly supports local schools, sporting clubs, charities, events, and community initiatives, while continuing to invest in team development through training, career pathways, and long-term growth opportunities.

Strong communities are built through strong relationships, and people will always remain at the centre of every project PBC delivers.

Client Testimonial

"I have worked with many builders over the years and I couldn't recommend Premier Building and Construction highly enough for their professional client focused service. I worked with them on the refurbishment of an old Bunnings store and their "one stop shop" with design documentation and construction worked exceptionally well."

Paul Lachal - Freehold Investment Management

Mercy Connect Assisted Living Units (7) and Community Building 2022

**Building
with Purpose.
Building for
the Future.**
